(Pocket-lint) - Windows Phone 7.5 and 8 users will finally get a chance to see that all the fuss over Temple Run, the hugely addictive iOS and Android game we've been defending on Pocket-lint for more than a year. Unfortunately, this is only the first Temple Run that Imangi Studios has to bring to the platform at present. Presumably if it's good the developer might consider adding Temple Run 2 to the Windows Store too. However, the original Temple Run is still an amazing game. It has a slyly simple gameplay that requires you to swipe and tilt your phone to avoid obstacles and collect coins and power outages, and you'll soon find yourself trapped in this yet another go frame of mind. (Pocket-lint) - Exactly a week after the iOS version of Temple Run 2 was released in the App Store, the Android edition hit Google Play and Amazon Appstore for Android.Featuring The same launch, jump, slide and collect gameplay as the original, the big change this time around is a huge improvement in graphic timing. Imangi Studios used the Unity engine to ensure that all versions could be redirected to the appropriate devices as easily as possible, but also made additional efforts to improve aesthetics. The textures on the surrounding objects are more detailed, and the frame rate seems to have been improved. Fortunately though, it will still feel familiar to those who are fans of the first Temple Run.Read: APP OF THE DAY: Temple Run 2 reviewSever many landscapes to go through in this outing. You start at the tops of the cliff, with zip lines included as a new feature, and there are mines and forests to go through. Of course, there's still a big beast monkey following close behind to grab you the second you bump into anything (twice). As with the original, real cash can be spent on fueling your character, but in Temple Run 2 each of the characters in the game have their own dedicated power to help too. You can go to Google Play or Amazon Appstore for Android now to grab your copy for free. One thing we noticed on Pocket-lint, however, is that when trying to find Temple Run 2 on Google Play on our Samsung Galaxy S III it didn't find out. But if you forcibly download it to one or all of your devices through a browser it works. Strange.What do you think of the new Temple Run 2? Let us know in the comments below... Written by Rick Henderson. Temple Run is one of the most popular games in Android history. Almost everyone has tried the game before. Even if you love mechanics, the game can become boring due to its repetitive nature. The good news is that there are other options available. Here are the best games like Temple Run on Android! Temple Run is an endless runner. We have even more endless runner games tied just below! Alto's Odyssey and Alto's AdventurePrice: Free to PlayAlto's Odyssey and The Adventures of Alto are the two best 2D runners on Google Play. They both have beautiful, background landscapes, simple mechanics, lots of unlocked content and arcade play that comes with games like Temple Run. The newer of the two is the Alto Odyssey. It adds a bit more content from the first game, including a fun screenshot feature in case you really want to play the game as a backdrop. There are in-app purchases in both games, but they are almost exclusively for cosmetic items and do not affect the game. In fact, in interviews developers claim they make most of their money from advertising anyway. Bendy's Nightmare RunPrice: Free to playBendy in a nightmare run is one of the most unique games such as Temple Run. The camera faces the runner so there to make it a little more exciting. In addition, the black and white look and old-fashioned animation style returns to the golden age of animation. The whole package is quite unique compared to most endless runner style The game also features boss battles, unlocked items and four game worlds. There are even merck links in the game in case you want a T-shirt or something. It's a positive experience and one of the new games such as Temple Run in the Play Store.Crossy RoadPrice: Free to PlayCrossy Road is one of the most popular runners in the Play Store. You guide the chicken through busy roads, streams and other obstacles. It's a simple game, but it's actually quite fun. Those who played Frogger back in the day should recognize a lot of mechanics. Players can unlock other game characters with coins they earn as well. In addition to everything, the game has a local and online multiplayer game, as well as support for Android TV. It's not like Temple Run, but it's still a great runner. Dead 2Price: Free To PlayIno dead 2 is the latest terta of the popular zombie running franchise. You run through a horde of zombies for as long as possible. The game includes several endings, seven chapters, 60 stages, different weapons, and even dog friends. This one is a little more violent than most Temple Run games. It's still a lot of fun, though. The game is free with in-app purchases. Fortunately, freemium elements are not so bad. Jetpack JoyridePrice: Free to playJetpack Joyride is another popular endless runner. It's a side scroll runner with tons of things to do. You play like Barry. Barry has a jetpack (obviously). There are plenty of jet backpacks to collect, obstacles to dodge, achievements, power outages and other things as well. It's family friendly and easy to play. One-touch controls are also easy to learn. This is a freemium game, like most games in this genre. That's not much of a deterrent, though. Sonic Dash 1 and 2Price: Free to playSonic Dash 1 and 2 are two more popular games like Temple Run. They use a classic style with three bands, different obstacles, boss fights and many others. They also have somewhat unique game mechanics, racing and themes from the hit SEGA games. This includes many played characters from the series. These are free games as expected. They're not too aggressive with him, luckily. Smash HitPrice: Free/\$1.99Smash Hit Outstanding Infinite Runner. You play first-person view, unlike most others. The game is quite simple. You throw balls at the glass panel to avoid hitting the glass. However, your amount of ammunition is also your overall life, so there is an ongoing strategy to avoid being hit and also linking as much ammunition as possible. We also like it because it's not free to play and has only one in-app purchase to unlock statistics and save. The developer also has Pinout, an endless runner with a pinball theme. Both are pretty good. Spies in DisguisePrice: Free to playSpies in disguise is the newest infinite runner on the list. This one is family-friendly, easy to play, colorful, and it has a bunch of characters from the film. You also get the usual power selection, play additional services here and there. However, it is also rock solid, family-friendly, and contains leaders for a bit of competition. It's also a free game, obviously. You get a camera angle behind your back, things to collect at startup, and obstacles that you should avoid. The game also has missions for looting, things to collect and unlocked characters.
